

# Accounting

## Associate in Applied Science

The Accounting Program at Broome Community College is a sequence of courses in Accounting, Business, and Liberal Arts that leads to the Associate in Applied Science Degree (A.A.S.). The program is designed primarily to prepare the student for employment in the Accounting field immediately after graduation, although many students do transfer to four year schools.

The program is designed to be completed in two years by the full-time student. Students who wish to pursue part-time studies may do so. Schedules can be personalized to fit many needs including some courses being taught in the BCC College-on-the-Weekend program.

**Program supervised by:**

Jan Pitera
