Students majoring in music may pursue four areas of study that will prepare them for transfer to senior institutions. These areas are: Music Education and Performance, Music Industry, Sound Engineering, and Music Therapy.

Students in this degree program are prepared to take transfer placement exams at senior institutions in the areas of written, and aural, theory and music performance, and generally achieve junior standing at baccalaureate degree granting institutions.

Students selecting music as a major are expected to be committed to a career in music and intrinsically motivated to meet high standards in: performance, aural skills, theory, and history.
